'67

Dear O.M.,

The Tuesday, November 7th, meeting of the WELLESLEY AMATEUR RADIO SOCIETY will hear a report entitled "MARS From the Inside." As you remember, W.A.R.S. sent five representatives on an expedition to MARS which began one year ago. I might as well give you the bad news first. We had one serious casualty on the trip and only four people actually made it to MARS. One of the four survivors is lecturing at a University on his experiences, but the other three will be present at the meeting to discuss the trials, tribulations and satisfaction gained by taking the trip. Tape recordings of actual MARS voices will be played and one of the famous MARS hammers will be on expedition.

After the report on the expedition, plans will be announced for the Fall license courses and the proposed construction nights. Want study questions for the Advanced and Extra Class examinations? Come to the meeting and pick up your copy.

Refreshments will be served and all interested in radio are welcome.

73,

Walt. Lenk, Secretary

P.S. Don't forget to bring your personal QSL card for the display.
